SPEECH OF HIS EXCELLENCY, MALAM DIKKO UMARU RADDA, PhD, CON, THE EXECUTIVE GOVERNOR OF KATSINA STATE AT THE FLAG-OFF CEREMONY FOR THE CONSTRUCTION OF 10.244KM RURAL ROAD UPGRADING SPANNING COMMUNITIES OF KUSADA-KAFARDA-YAYA UNDER THE RURAL ACCESS AND AGRICULTURAL MARKETING PROJECT (RAAMP) ON 11TH FEBRUARY, 2025.

Protocol:

I am standing before you here fulfilled having started implementing our projects as we promised while were seeking for your mandates. It is therefore paramount to us as a government to renew the hopes and aspirations you have on us to continue to build a strong a virile society.

It is therefore necessary for me to express my deep appreciation and pleasure that a solid

foundation has been laid for the eventual and the overall development of this community.

The success story so far and the indicators have really inspired our government to ensure that every community enjoys dividends of democracy within the lean resources at the government disposal.

Distinguished ladies and gentlemen, roads development always bring happiness and smiles to the entire beneficiaries as such every effort will continue to be done to ensure that communities are opened and linked up to attain the growth of economy and enhancement of the social being of the end users of the facility.

I wish to use this occasion to renew our appeal to the entire communities where government cites one or more project to look after it jealously and safeguard it against vandalization or misuse

In this regard, relevant government agencies should be contacted in the event anyone is found attempting to vandalize or misuse any property cited for the benefits of the citizens.

It is paramount to reiterate that this administration is fully aware of the basic needs of the people especially those in the rural areas, hence the establishment of community development committees at the ward levels to cite relevant projects that have direct bearings on the lives of the end users.

This should not therefore be viewed as a misplacement of priority but rather an allocation of what is due to the target beneficiaries and at their door steps so that together everyone reaps the fruits of good governance and purposeful leadership.

Finally I am glad to announce that contract for one strategic road construction which starts from **Bindawa-Shibdawa-Doro** with a stretch of **19.809km** will soon be awarded by **RAAMP.** Apart from this the **Charanchi International Market** will be upgraded to a standard modern market to meet the demands of the thousands of traders that patronize it from within and outside Nigeria for trade and other economic activities.

In conclusion I want to sincerely appreciate the roles of the Federal government and our international development partners and all other stakeholders for coming to the aids of our communities in improving the quality of their lives through this particular project.

Thank you all for listening.
